

**ERASMUS+**

*4-10 of June 2023*

**Zespół Szkolno Przedszkolny nr 1 w  
Piszu**

**Project title: “Let’s remove  
bullying and promote kindness  
to one another!”**

**Project number: 2020-1-UK01-  
KA229- 078813\_4**

During the period 6-10.06.2023, students and teachers from Spain, Romania, Poland and United Kingdom participated in the meeting entitled "What are the consequences of cyber-bullying? Ethical and legal standards for online activities, looking at the psychological impact", which took place at **Zespół Szkolno Przedszkolny nr 1 w Piszcu, Poland.**

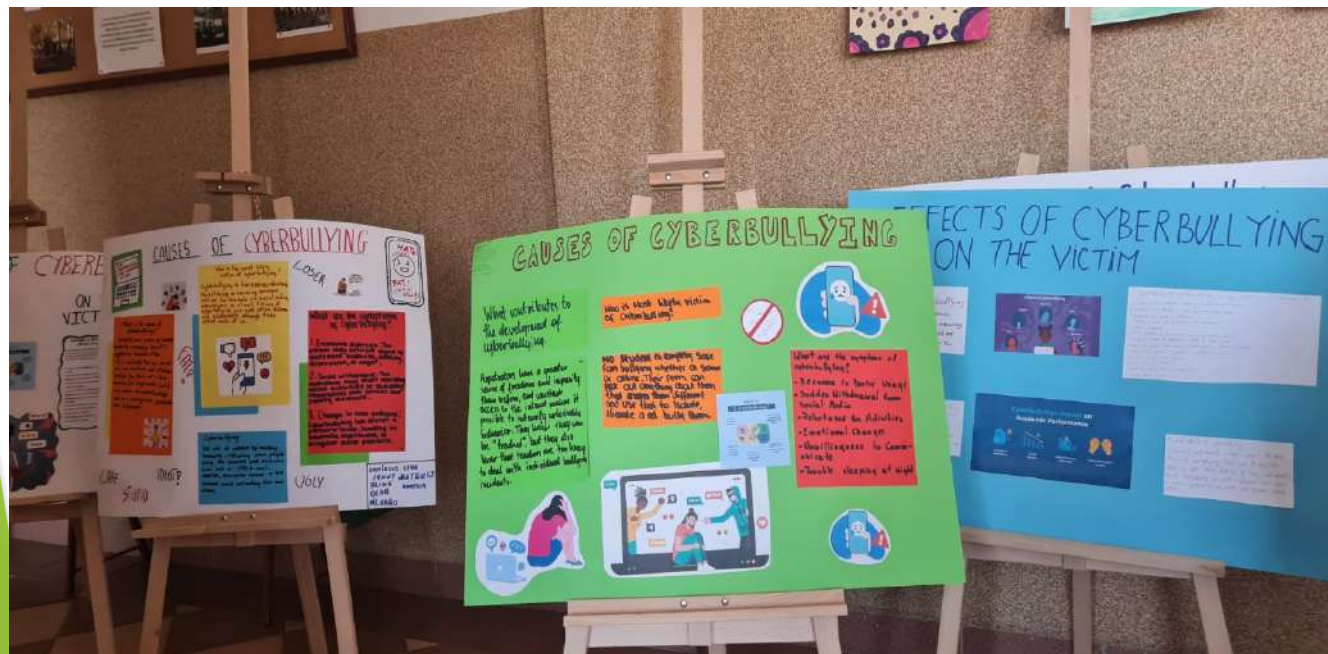

During the school activities, students had the opportunity to interact, to communicate in English, to share their experience, to develop their personal skills, to analyze the causes and effects of cyberbullying, to participate in role-playing games and other interactive activities on this topic.

The students also created posters containing drawings and impact images to raise awareness about cyberbullying.

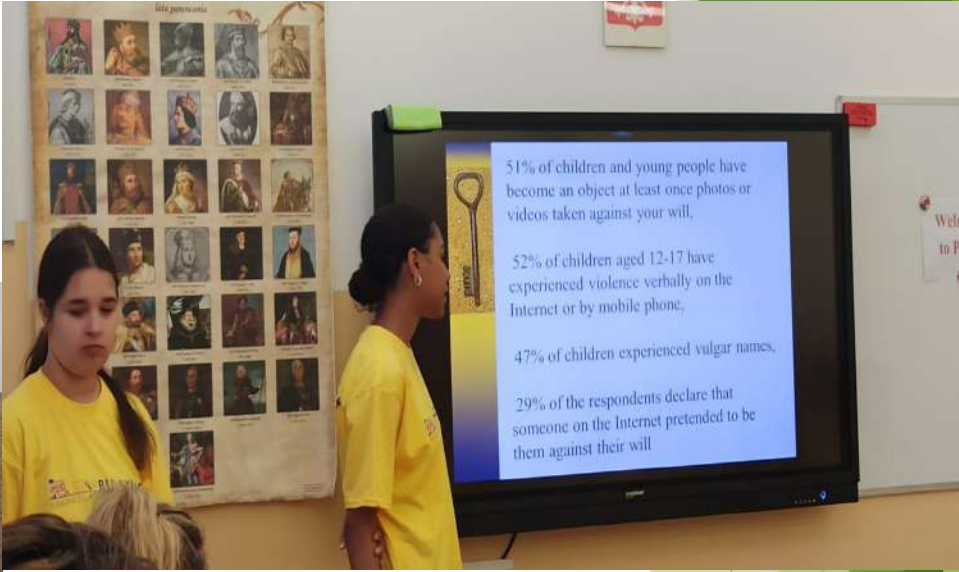

Students were also involved in sports and leisure activities, such as: games in the gym, swimming, water bike ride down the Pisa River, boat trip on the lake Ros, rafting down the Krutynia river.

The Meeting of students and teachers with the Mayor of the City of Pisz at the City Hall in Pisz was a good opportunity to discuss the benefits of the project, the importance of intercultural dialogue and the benefits of collaboration between schools involved in the project.

The cultural activities that included visiting the cities of Pisz, Olsztyn, Ruciane Nida, the Museum of Pisz, the Planetarium, aimed to develop students' communication, social and cultural skills in European context.

For teachers it was an opportunity to share ideas and methods, to socialize, to enrich their cultural and linguistic skills, to discuss the results of the project, to strengthen relations with partners in order to collaborate for other projects.

In this mobility the students experienced the student life of a Polish student by attending classes and spending time with their hosts, during free time in families. They also experienced the Polish lifestyle, they became more knowledgeable about traditions, cultural landmarks, daily problems.

At the end of the week the students became more communicative and self-confident in using English in everyday contexts.
